BONALDO

Alley

Designer: Giuseppe Viganò

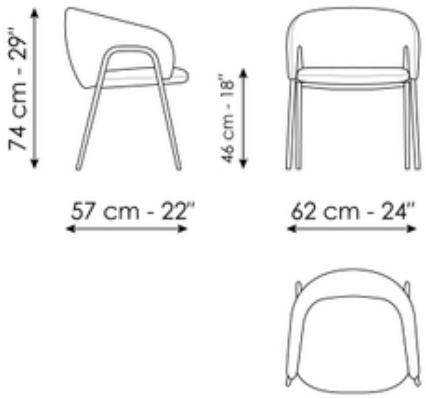

A succession of rigid lines and soft shapes that culminates in a harmonious union between essentiality of forms and creative flair. Designed by Giuseppe Viganò, the Alley chair stands out on account of its bold metallic frame and understated but distinctive presence. The alternation of full and empty spaces gives dynamism and continuity to the seat, while the slender legs create a sense of seriousness and lightness. The low backrest completes the clean and light design and balances the frame, emphasizing its contemporary style.
