BONALDO

Anemone

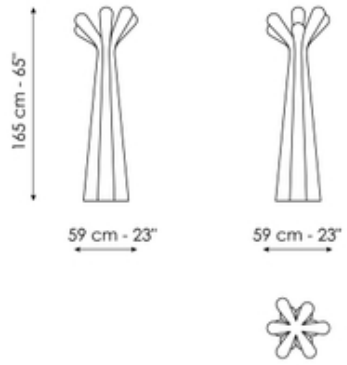

Designer: Fabrice Berrux

Anemone is shaped like a tree, consisting of six different branches which open up and out from a robust trunk that lends the figure stability. The Anemone designer coat rack aims to go beyond mere shape and functionality and focuses on the textured aspect too, in keeping with the painstaking care that Bonaldo has always reserved for materials and finishes. Anemone is available either in polyethylene, or totally covered in fabric, and it can be placed anywhere at home, in hotels and offices.
