BONALDO

Antibes

Designer: Elle Lab

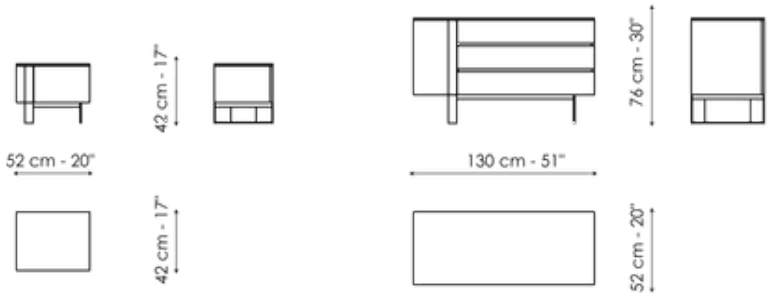

Antibes is a storage system designed for the bedroom area which draws its inspiration from the traditional shapes of dressers and bedside tables and then deviates from them, taking the geometry of the designs to an extreme. The asymmetrical metal base supporting the lacquered wooden structure adds a distinctive original and modern touch. On one side of the element the base runs vertically along the entire front section of the dresser or bedside table until it touches the ground; on the other side, it becomes slender and thin, as though wishing to disappear from view. The bedside table and dresser set in the Antibes collection are available in two different colour combinations: rope lacquered wooden frame and bronze finish metal base, or mud lacquered wooden frame and lead finish metal base.

Data sheet

Bedside table with one drawer

Width: 52cm

Depth: 42cm

Height: 42cm

Drawer chest

Width: 130cm

Depth: 52cm

Height: 76cm
