BONALDO

Art Console

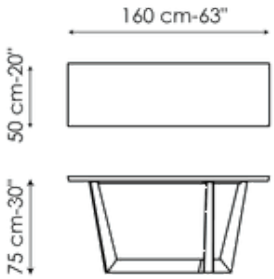

Designer: Gino Carollo

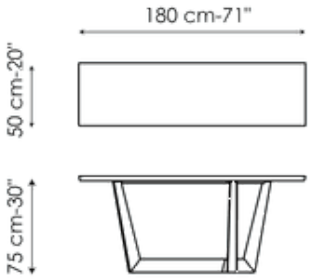

Elegant and original, the Art Console is a design console for entrance areas characterized by the design of the metal base that supports a long top. The load-bearing frame is distinguished for its elevated dynamism, its solidity and sculptural impact. The top is placed on it firmly, with a final effect of incredible lightness. The base is available in painted metal while the top is available in various choices of wood or in ceramic (marble only in the round-edges version) and in the rectangular or round-edges version. The Art Console stands out on account of its elegant geometric and graphic value, enhanced by the richness of the materials and finishes.
