BONALDO

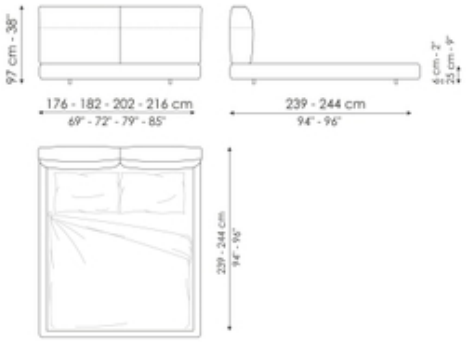

Belloalto bed

Designer: Gabriele & Oscar Buratti

Belloalto bed brings to the bedroom a formal language defined by generous proportions and tailored detailing. The design is centred around the high headboard, conceived as a wide and comfortable support element. Its soft, slightly rounded lines emphasise a welcoming character, while the low bed frame, with its substantial thickness, reinforces the overall sense of visual solidity.
Belloalto bed interprets the sleeping area through a soft and contemporary language, where generous proportions, material richness and tailoring come together to define a design of timeless elegance.
A pronounced fold defines and enhances the two ends of both the headboard and the bed frame.
