BONALDO

Blabla

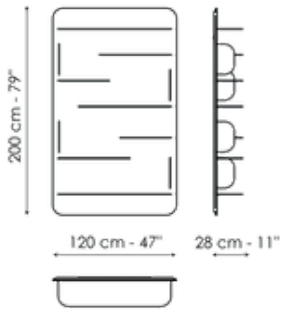

Designer: Marconato and Zappa

The Blabla collection consists of two different functional units, a contemporary design bookcase panel and a mirror panel, which when paired together create a system of elements that can be individually positioned or combined in an elegant composition. The distinguishing feature of the Blabla contemporary bookcase and mirror is the rounded profile of the shelves and side support panel, as well as the interruption and discontinuity of the shelves.
The Blabla collection consists of a thick panel in Canaletto walnut or coal ash wood, contrasting with slender metal shelves; the bookcase is wall-hung and comes with shelves of various lengths.
