BONALDO

Boolean armchair with covered base

Designer: Giuseppe Viganò

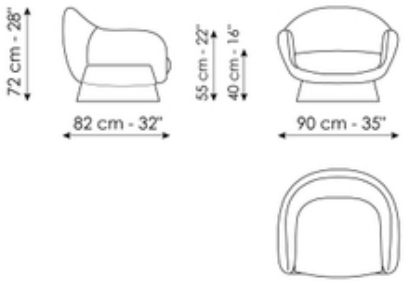

The Boolean armchair evolves into a version with a fully upholstered base, available in both fixed and swivel versions, expanding the customisation possibilities and making it suitable for contemporary spaces.
This modern upholstered armchair re-proposes the distinctive features of the original design such as the soft, curved profile that gives it a strong personality. Capable of being the focal point of any room, the Boolean armchair with a closed base is perfectly suited both in combination with the sofa and as an independent element to be inserted in a living area, a study or a sleeping area.
