BONALDO

Combination

Designer: Alain Gilles

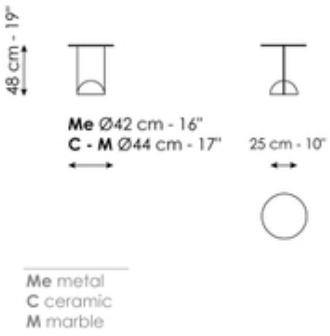

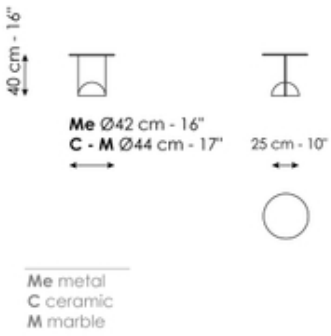

The union of the circle, rectangle and half sphere creates an object whose perception and interpretation vary according to the observer's point of view. Combination is in all respects an element that is always original, with a variable character: when seen from the front, the rectangular element looks very wide; the same element, when observed from the side, on the other hand, appears to be extremely slender. Combination is a modern coffee table for living room available in two different heights and in numerous painted metal finishes: among them, the elegant bronze, lead, pearl gold and clouded chrome, brown nickel and dark nickel shades.

Data sheet

Combination high

Width: 42-44cm

Depth: 42cm

Height: 48cm

Combination low

Width: 42-44cm

Depth: 42cm

Height: 40cm
