BONALDO

Coseno, Coseno plus

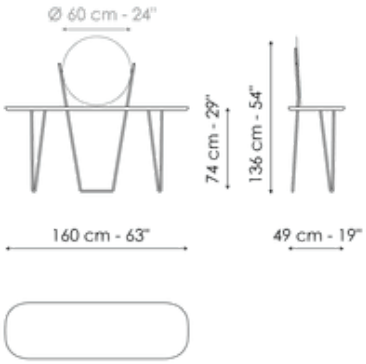

Designer: Mauro Lipparini

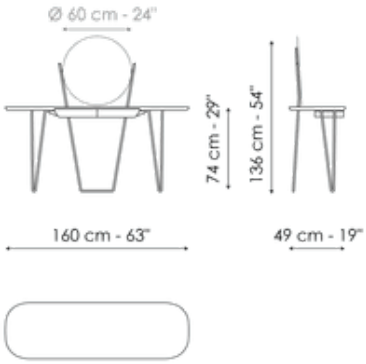

Light in its tubular structural elements yet strong in its proportions, the Coseno bedroom modern makeup vanity desk is a multifunctional console: a display surface, dressing table, desk and adjustable mirror. Precisely because of these features, it is an ideal item for furnishing any environment, to be placed either in the entrance hall or the bedroom. The slender frame, available in matt painted metal or in the elegant matt copper and matt bronze finishes, supports a wooden top: a sophisticated material element that gives warmth, enriches the overall lightness and makes it immune to the passage of time. In the Coseno plus version, the two practical metal drawers, made in the same finish as the base, offer further space for placing books or objects.
