BONALDO

Dune TV stand

Designer: Giuseppe Viganò

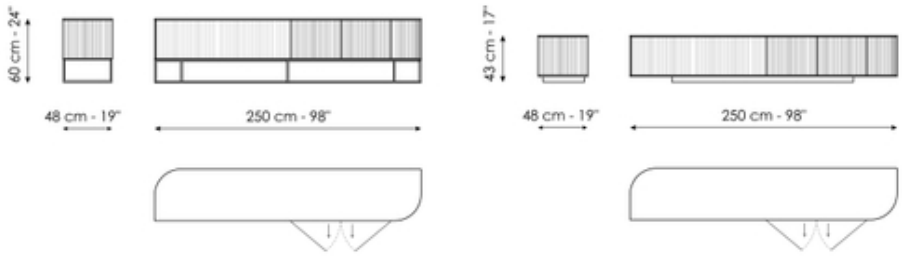

Like the sideboard of the same family, the Dune TV cabinet is notable for a wavy wooden surface that creates an interplay of light and shadow. In this version the structure alternates an “empty” area, in which books or decorative objects can be stored, and a “full” section closed by a door. The Dune TV stand is available in two fixed color combinations (Canaletto walnut and bronze or carbon oak and lead), with metal base or plinth. In the Dune TV stand light version there is an integrated system of lights giving a backlit effect.
