BONALDO

Dune

Designer: Giuseppe Viganò

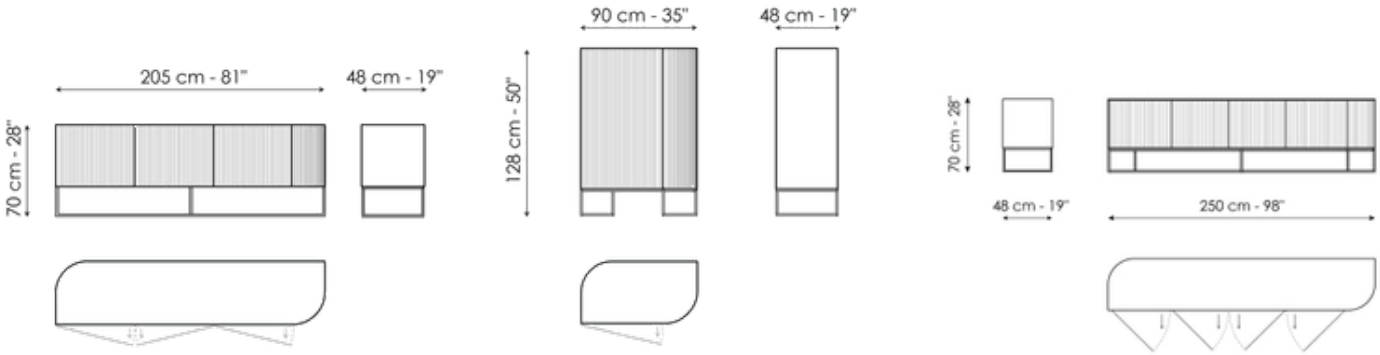

The wooden front doors feature a wavy surface that creates an alternation of light and shadow, while the metal base has an asymmetrical design that enhances the horizontal structure of the sideboard.
Dune is a design wooden sideboard with a rigorous style, which is also extremely elegant and meticulously designed down to the last detail. It is an element that fits perfectly into both a private home and an office.
The Dune sideboard is available in two different colour combinations: bronze lacquered wood outer frame, Canaletto walnut doors and bronze-coloured metal base or lead lacquered wood outer frame, coal ash doors and lead-coloured metal base.
