BONALDO

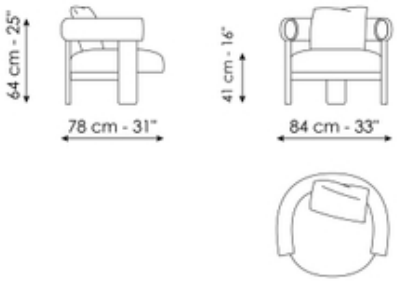

Bull

Designer: Gabriele & Oscar Buratti

The Bull elegant armchair is a harmonious dialogue between opposites. The rigid three-legged solid wood frame contrasts with the welcoming and informal softness of the backrest cushion, giving life to two complementary souls that blend stability and visual lightness, strength and delicacy.
The round seat acts as a counterpoint to the tubular element with its elliptical section, which extends continuously from the backrest to the armrest in a fluid and enveloping embrace. Its considerable softness allows the backrest cushion to introduce a note of relaxation.
Versatile and sophisticated, Bull is not just an elegant living room armchair: it can complete a living area next to a composition of sofas, but it can also exist alone or in a pair, whether in the sleeping area or in a corner dedicated to relaxation and reading.
