BONALDO

Foil

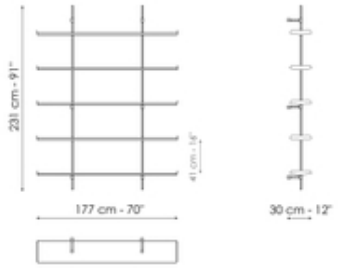

Designer: Maurizio and Silvia Varsi

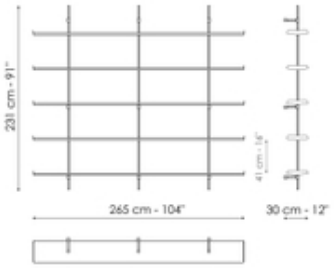

The name Foil is an instant reference to the world of sailing boats, which fly over the water at high speed as if they were weightless. The Foil modern bookshelf is inspired by this lightness, an intersection of metal and aluminium shelves and uprights, solid materials that at the same time convey a feeling of lightness which is ideal for perfectly focusing attention on books and objects. Thanks to the reduced depth and the numerous formats available, the Foil bookcase adapts perfectly to different living or office environments.
