Gauss

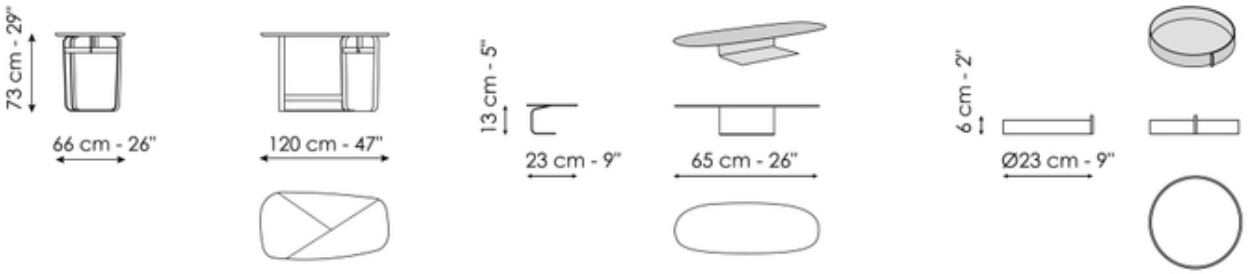

Designer: Mauro Lipparini

The Gauss modern wood writing desk features a curved, fluid top with no sharp edges, much like the legs, which take on the appearance of metal rings with rounded corners. The distinguishing feature of Gauss is the raised section, which creates a second level for the desk. In addition to the main desk top in wood, Gauss also offers a practical “floating” shelf made from ceramics, which is attached to the main desk via two metal bars. Gauss’s other unique detail is the shape of the legs, which stand in a dynamic, asymmetrical position, creating an irregular structure which lends a youthful, casual quality to the desk. In addition, the veining in the wood of the desk top adds dynamism, increasing the desk’s aesthetic impact. One possibility for customisation is the addition of a concealed round drawer in painted metal.
