BONALDO

Greeny

Designer: Gino Carollo

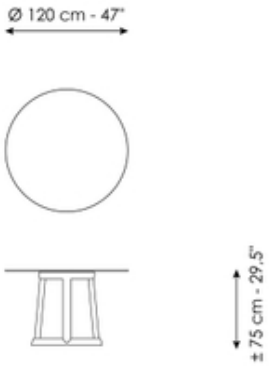

Marked by harmonious elegance, this fixed table combines a solid wooden base, available in two different finishes (American walnut and coal ash), with an oval or round top made with different finishes in marble, glass or ceramic.
The elegance of the top's lines, visible in its thinness, perfectly combines with the material value and the excellence of the cabinet work on the base: the result is a table that, even in its simplicity, expresses personality and visual lightness, displaying the most classic taste without, at the same time, giving up a more contemporary aesthetic. Greeny therefore lends itself to combinations with furniture of various styles: an elegant round dining table that can embellish and enhance any context.
