BONALDO

Honeymoon

Designer: Mauro Lipparini

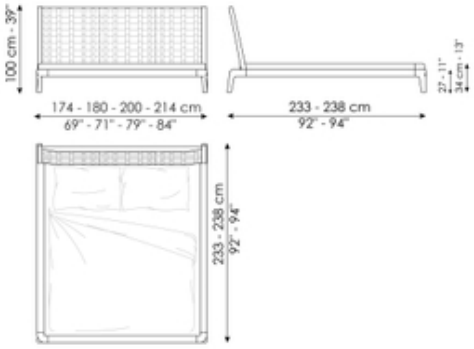

The Honeymoon double bed is dedicated to those who in addition to design, also appreciate the skilful quality of manufacturing. The high craftsmanship of the manually-applied weaves in full-grain leather, which characterize the headboard, and the uninterrupted curves in the solid wood frame make it an outstanding element that furnishes the bedroom with character: an exclusive and striking product, perfectly characterized by the meeting between walnut wood and leather boldly interwoven in terms of proportions and natural balance. The frame is enriched by further details: the edge that surrounds the perimeter of the bed is padded and covered in fabric and thus joins the mattress in a natural and sophisticated layered transition of materials, creating a degradé between wood, leather and fabric, emblematic and distinctive features of a design style and a strong personality.

Data sheet

Honeymoon

Width: 174 - 180 - 200 - 214cm

Depth: 233 - 238cm

Height: 100cm

Finishes

Structure

Solid wood

American walnut
