BONALDO

Isola mirror

Designer: Mario Mazzer

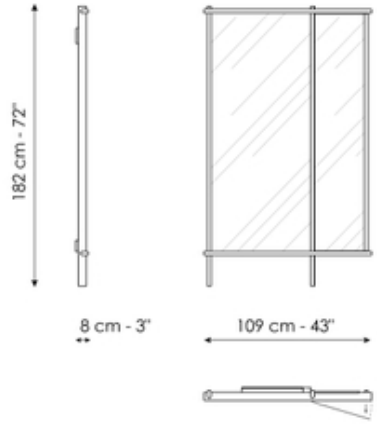

The freedom to reflect at ease, tilting a part of the mirror to reflect images from every perspective and visualize every little detail. This is the idea behind Isola, a mirror surrounded and supported by solid wood profiles with an oval section and a moveable flag wing. The value of the asymmetric frame in American walnut lies in its lack of balance: the mobile part is in fact what makes the mirror more functional, making this complement ideal for the sleeping area, but also for other rooms of the house such as entrances , corridors or walk-in closets.

Data sheet

Isola mirror

Width: 8cm

Depth: 109cm

Height: 182cm

Finishes

Frame

Solid wood

American walnut
