BONALDO

Kaos

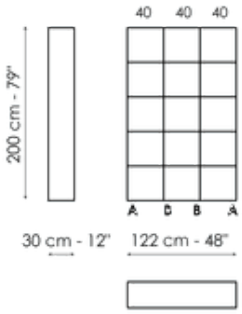

Designer: Mauro Lipparini

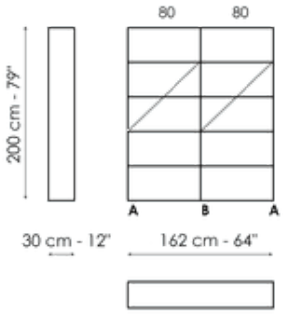

The Kaos bookshelf, designed by Mauro Lipparini, stems from the minimalist design marked by pure simplicity. Devoid of decorative elements, Kaos frames empty spaces to be filled with books and objects to create a special, intimate place in which to express your personality. The aluminium shelves are supported by metal uprights featuring small holes, thus allowing you to position the shelves.
Kaos can be customized by matching its modules, which come in different sizes, to your own personal tastes.The modular flexibility is enhanced by the possibility of adding wooden boxes.
