BONALDO

Ketch, Miss Ketch

Designer: Bartoli Design

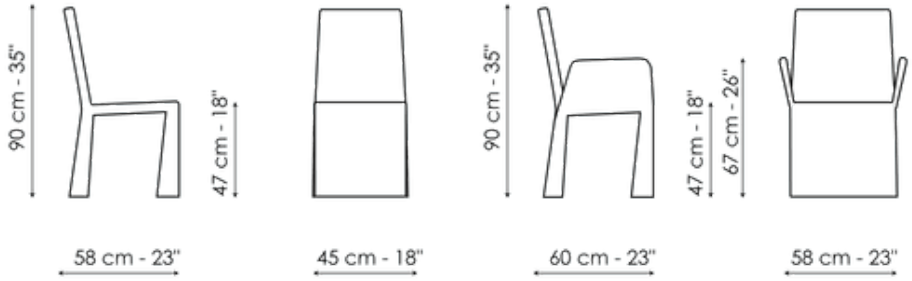

Ketch is an elegant padded chair designed by Bartoli Design with shapes that are curved and stretched at the same time, with no interruptions. The metal frame and comfortable padding are upholstered with leather, eco-leather or fabric, which are fully removable. Also available in the Miss Ketch variant (with armrests), that can be combined for a functional and aesthetically consistent result.
Characterised by generous and welcoming proportions, the collection has a shape that is clean and essential, embellished by the great quality of the upholstery and the slender and dynamic design that derives from its unusual inspiration. This gentle elegant chair solution is at home in sophisticated domestic environments: perfect for the dining area, it manages to dialogue with different styles and worlds.
