BONALDO

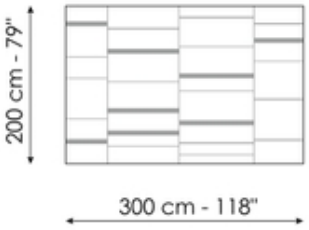

Lomé

The Lomé rug is the result of ancient artisanal techniques, which give life to a piece of home décor capable of enhancing any space with authenticity and character. Hand-knotted using traditional methods that require considerable time and great skill, Lomé is the result of a slow and meticulous process, whose Persian knot structure ensures a compact and durable weave. The rug is made of short-pile wool, hand-spun and hand-dyed: a choice that gives the rug softness and visual depth, as well as creating subtle and exquisite variations in shade and texture.
