BONALDO

Kitai

Designer: Marconato and Zappa

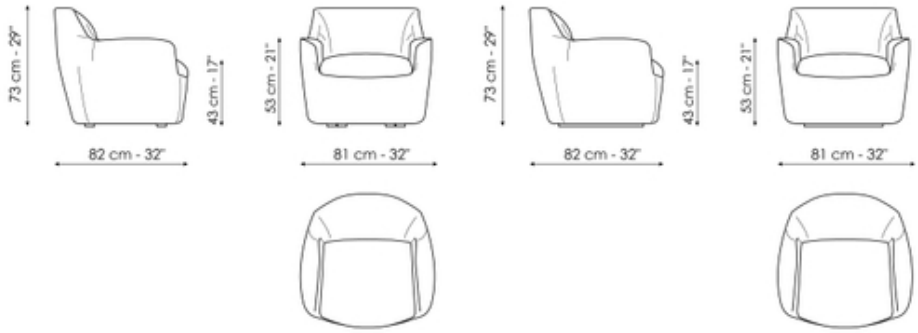

Compact and welcoming, the Kitai modern armchair plays on the balance of proportions and shapes to fit naturally into the most disparate living and hospitality areas, combining style with the comfort guaranteed by the soft and comfortable padding. These characteristics are markedly contemporary yet classic and timeless at the same time, something which make it ideal both for harmonizing with different furnishing styles, and for use in multiple contexts and moments of the day, both in the living area, the sleeping area or in the office. Perfect for informal conversations, relaxation, or waiting in reception rooms, the Kitai leather or fabric chair is a versatile addition to any space.
