BONALDO

Nelson vanity and home office

Designer: Matteo Nunziati

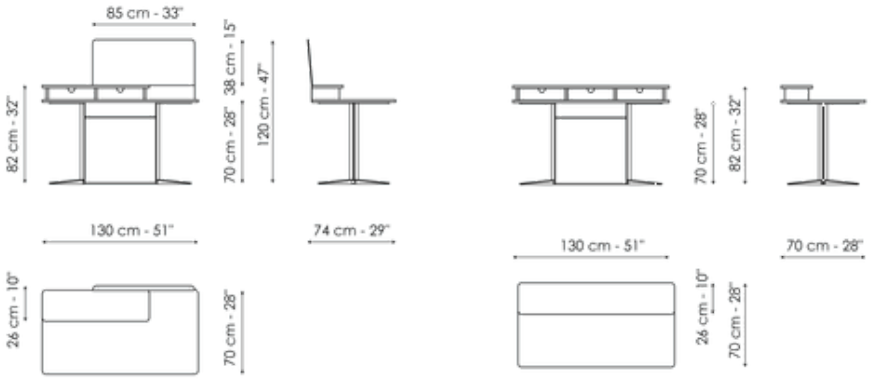

Clean lines and a contemporary feel characterise this piece from the Nelson collection by Matteo Nunziati, which is available either in its vanity table or home office version.
Inspired by the Modern Movement - a period aimed at renewing the character, design and principles of architecture - it features meticulous details that enhance the surfaces.
The Canaletto walnut top is supported by a metal base with a pared-back yet contemporary design. In the vanity version, the rectangular mirror and lacquered wood drawers complete the look, making it practical and suitable for everyday use.
The Nelson modern writing desk with drawers can also be used as a home office ready to adapt seamlessly to every room in the home, becoming a faithful “ally” whatever the need.
