BONALDO

Neuilly too

Designer: Fabrice Berrux

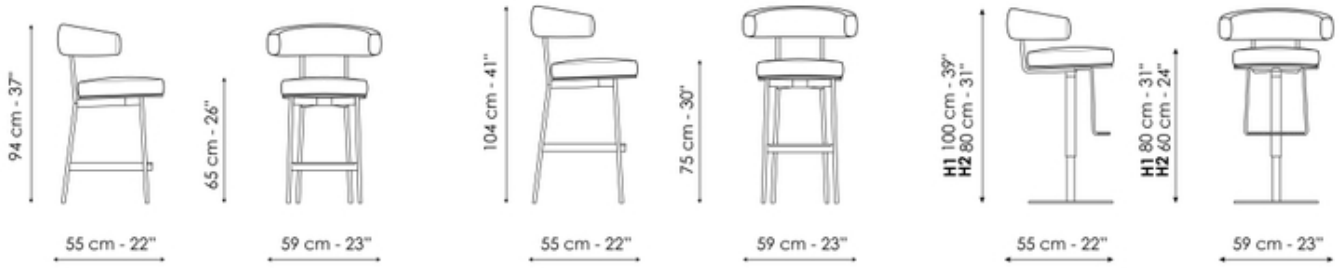

Neuilly too stands out for its delicate image and unique formal qualities which combine the geometric purity of the classic stool with a level of comfort that is evident at first glance.
The slender proportions of the linear metal frame further highlight the circular padded seat while at the same time the ergonomic profile of the welcoming backrest/armrest offers a natural seating position and guarantees the stool great ease of use both in bar spaces and facing counters in dining areas.
