BONALDO

Olos mirror

Designer: Mauro Lipparini

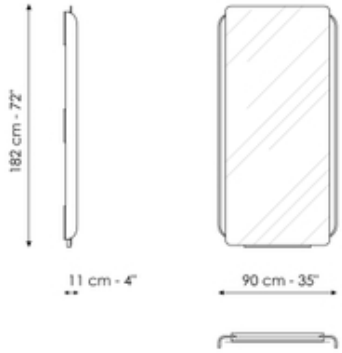

The Olos mirror is mounted on an inwardly curved platform that frames it with geometric generosity, thus taking up the theme of curved laminated wood that is the hallmark of the Olos collection. Available in three different sizes, the Olos mirror has a floor stand and in the light version, LED strips can be integrated between the mirror and the frame, thus generating a series of bright chiaroscuro effects, thus making the Olos mirror a combination of formal essentiality.
