BONALDO

Pil too

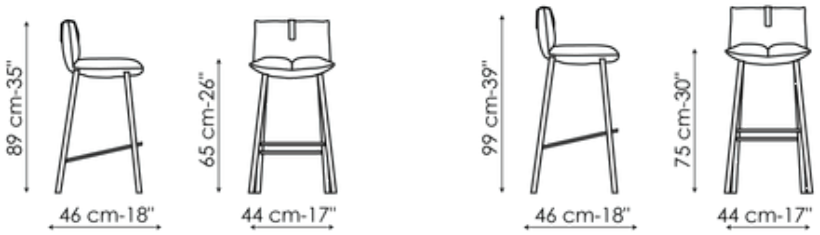

Designer: Alessandro Busana

In Pil too, softness is evident even before you sit on it. Inspired by the object that is itself the symbol of softness, the pillow, and usually interpreted as an accessory, here the pillow plays the starring role, shaped and adapted to create a chair that conveys comfort and relaxation.
The main components of the Pil too design stool are the backrest cushion and the seat cushion. The latter features a fold in the middle, created to generate an enveloping effect that physically and visually emphasises the feeling of softness. The base consists of metal legs, with the crossbars set at a special angle, to create an original graphic interweaving effect.
In addition to the bar stool, other chairs complete the collection: Pil, (chair), Pil up (chair with higher backrest), Miss Pil (chair with armrests), Miss Pil up (chair with higher backrest and armrests), the Pil armchair and the Pil Armchair hi.
