BONALDO

Pivot ST

Designer: Marconato and Zappa

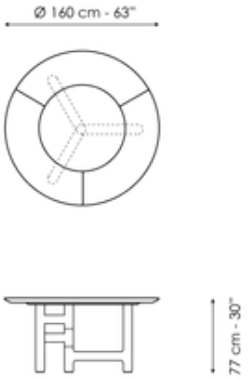

Designed by Marconato&Zappa, the Pivot table takes its name from the unusual shape of the base: the central leg acts as a pivot for the three legs which extend to the sides. The result is an asymmetric and highly original combination that makes a statement in the room. Its legs are made of coal oak or solid walnut wood with metal inserts.
In the ST (Swivel Top) version with rotating top, Pivot ST catches the eye thanks to the large circular top surface, available in three different sizes, which features an interesting interplay between materials and which combines the outermost wooden frame with a rotating central ceramic or marble section.
