BONALDO

Squaring bench and pouf

Designer: Giuseppe Viganò

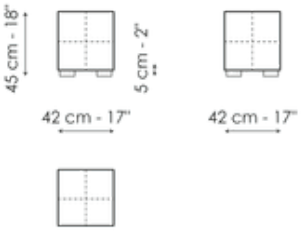

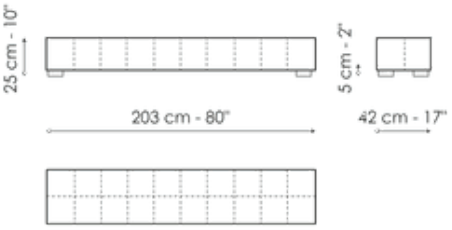

The Squaring accessories turn the sleeping area into a living space. Inspired by the series of beds of the same name, the geometry, covers and quilting which it recalls, the collection includes a bedside table, modern end of bed bench and pouf. All the elements are distinguished by the design strength and sartorial accuracy of the processes, characteristics that when combined with the severity of the lines, make them extremely contemporary and perfectly suited to modern residential styles. With completely removable covers available in fabric, leather or eco-leather, the Squaring accessories can be used individually or combined in a group, furnishing the sleeping area in an original and creative way and ensuring the utmost functionality and consistency of the design.
