BONALDO

Tonight, Tonight air

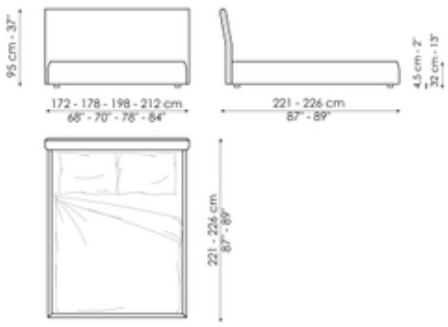

A small example of architecture for resting, the Tonight bed is notable for its linear design and stylish versatility which makes it suitable for a variety of interior applications. Whether in single or double format and with completely removable covers in fabric, leather or eco-leather, it is available in a wide range of versions. The option of having additional space is available with the Tonight open version which features a storage drawer while the Tonight charme version has a headboard embellished with vertical quilting that highlights its shape, and the Tonight air version has shaped metal feet which raise the bed frame higher above the ground. A further opportunity for personalisation is given to the Tonight and Tonight open versions by the decorative border of the headboard and bed frame which can be either matching or in contrast with the cover.
