BONALDO

Tree, Tree light

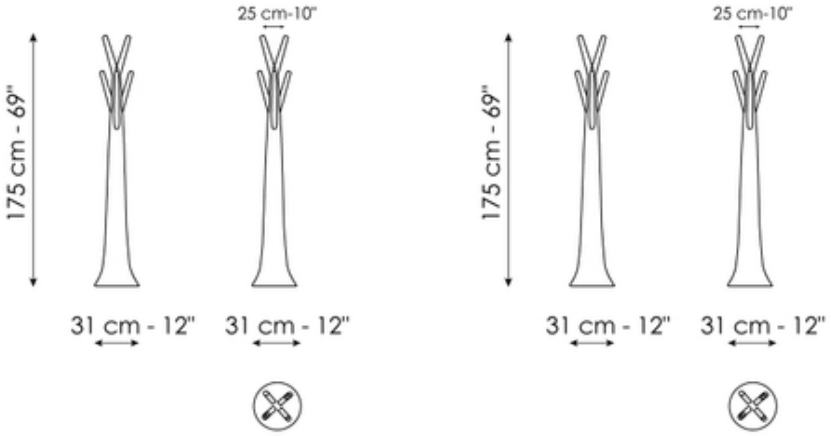

Designer: Mario Mazzer

Tree is an entryway coat rack tree that gives personality to the domestic landscape. Perfect for anywhere in the home, it can even be placed outside, thanks to the plastic material it is made of, which is resistant to atmospheric agents. Available in a multitude of finishes, Tree takes its name and design from the unmistakable silhouette of trees, bringing nature, reinterpreted in a cheerful key, into the home. An unusual and fun design piece, capable of enlivening the environments even when it is free of jackets, overcoats and hats. It offers expressive intensity and formal identity with an unusual interpretation while the Tree light is the lamp version of Tree, made in white for purity, elemental appeal and modernity.
