BONALDO

Venere

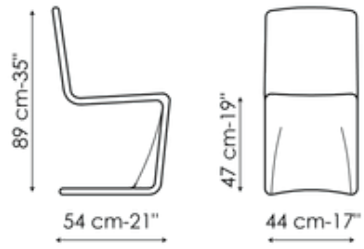

Designer: Bartoli Design

The suppleness of the body was inspired by the design of the Venere contemporary dining chair: the result is a sinuous shape that encompasses style and comfort and recalls the classics of design. The simplicity of the four lines on which it is based expresses a totally feminine elegance, as is evident from the name. Suitable for the home or the office, Venere is completely upholstered in leather, eco-leather or fabric.
The aesthetic is clean, light, agile and elegant, with a clear contemporary edge but still suitable for every furnishing context thanks to the versatility that comes from the sartorial care and excellence of the materials.
