BONALDO

Vertigo

Designer: Dondoli and Pocci

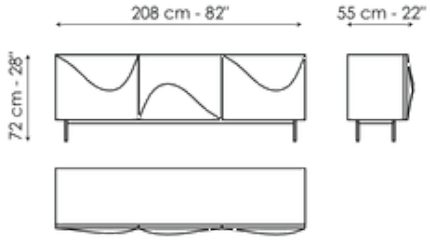

Inspired by the poster for Alfred Hitchcock's film of the same name, the Vertigo design sideboard is distinguished by the soft wave that characterizes the front doors, creating a flow of movement on the surface that softens the rigorous design of the unit. The metal base consists of four seemingly slender feet that give the entire unit a sense of lightness.
The Vertigo sideboard is available in three different colour combinations: white lacquered wood outer frame, white lacquered structural polyurethane doors, white metal base or matt bronze lacquered wood outer frame, bronze lacquered structural polyurethane doors, bronze metal base or matt lead lacquered wood outer frame, lead lacquered structural polyurethane doors, lead metal base.
