BONALDO

Partout

Designer: Marconato and Zappa

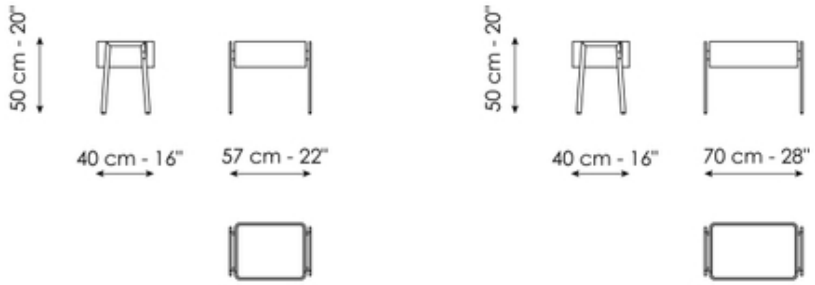

Linear and rational in shape, the Partout wooden bedside table is suitable for a wide range of furnishing styles in the sleeping area, in both single and double bedrooms. The design is based around an essential drawer container with rounded corners, made of wood and visually enhanced by the top which is available in marble or ceramic. The light and refined image of this section is further highlighted by the independent supporting frame, made up of an exposed metal trestle structure. Partout modern wooden bedside table is available in two sizes, suitable for every space requirement.
